First seen as an adult: where			Nest cam		Near Pt San Pablo†							
Rosie is last seen for the season		Morning of	9/19/17		Morning of	9/14/18		Morning of	9/26/19			

## Footnotes

\* Egg laid night of 4/6-7, power out due to storm

\*\* Euthanized by WildCare on 7/8/17 due to injuries sustained 7/4

\*\*\* Died of exposure during unseasonably cold storm

^ WP Peace-up inadvertently fledged to the crane platform below the nest in the morning, then intentionally flew to the cable in the afternoon

^^ ZK Kiskasit inadvertently fledged to the crane platform, stayed overnight, flew off at 5:51 am (9.8 hr total), spent 6 hrs on the crane, returned to platform

at 11:52 am, left platform at 4:25 pm (~4.5 hrs) and finally returned to nest 7/3 at 4:27 pm, ~20.5 hrs between fledge and return to nest

† Tony Brake observed an Osprey with two bands, one which read VU, on a piling near Pt San Pablo (~5 mi from nest) with a Striped Bass. See video page for video.

^^^ WP Peace-up fell from a tree 10/1/19 and died shortly after in Corte Madera, CA. No obvious injuries, no known cause of death.

†† XV Tam flew from the boom 7/5, was found behind Riggers Loft the morning of 7/6. Surgery by IBR 7/10 for broken leg, ultimately euthanized 7/26 after a rapid decline.
